

## Past CALIPER Events

Since 2009, CALIPER has travelled across Southern Ontario to recruit healthy children at daycares, community centres, and elementary, middle, and high schools. Hundreds of daycares/schools and over 12,000 children and adolescents have already participated in the CALIPER program. Below is a list of some of the schools, daycares, and community groups that have partnered with us since our inception. We would like to thank all of the centres who have worked with us in the past and who continue to work with us into the future. Most of all, we need to give our heartfelt thanks to all of the children and parents who have participated in our study. Their participation is contributing to improved care of children with medical concerns in hospitals across Canada and around the world.
